Priyanka Rekhawar

Java Software Developer

+919307946684 | rekhawarpriyanka1@gmail.com | LinkedIn | Pune

SUMMARY

Java Developer with 3 years of experience in developing scalable microservices, cloud-native applications, and enterprise banking solutions. Expertise in Java, Spring Framework, Microservices, Hibernet, RESTful APIs, and DBMS. Experienced in designing secure and high-performance applications, implementing CI/CD pipelines, and supporting production systems in Agile environments. Strong exposure to Finastra Global PAYplus (GPP).

WORK EXPERIENCE

Finastra Pvt. Ltd **August 2023-Present**

Associate Software Engineer

- Contributed to the development of critical banking solutions, ensuring high-performance, secure, and scalable systems for leading financial services clients.
- Delivered efficient, client-focused solutions leveraging expertise in Java, Spring Framework, MySQL, and database optimization.
- Maintained high-quality standards by developing comprehensive JUnit test cases, ensuring robust test coverage and application reliability.
- Demonstrated strong problem-solving skills by debugging and resolving setup and code-level issues, ensuring seamless application performance.
- Implemented MT payments and address line processing functionalities.
- Migrated business rules from database-driven configurations to JSON-based configurations to improve maintainability, flexibility, and processing efficiency.
- Worked on Hybrid Address CRs and resolved related defects to ensure correct address processing and application functionality.

SKILLS

- Programming Languages: Java
- Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS
- Frameworks and Technologies: Spring Boot, Spring Framework, Microservices, Hibernate, JPA, REST
- APIs, SOAP APIs Databases: SQL, MySQL
- Version Control: Git, PerForce Project
- Management: JIRA Development
- Tools & Platforms: Confluence, SonarQube, Eclipse, SOAP UI, GIT, Maven, Junit
- Methodologies: Microservices Architecture, Agile, SCRUM, Problem Solving and Analytical Skills

Twowaits Technologies Pvt. Ltd **Jan 2022 – Feb 2022**

DSA Intern

- During my internship, I gained practical experience with Data Structures and Algorithms (DSA), applying concepts such as arrays, linked lists, stacks, queues, trees, graphs, and hash tables to solve real-world problems.
- I utilized techniques like dynamic programming, divide-and-conquer, and greedy algorithms to develop efficient and optimized solutions.

CPPSECRETS Pvt. Ltd **Aug 2022 – Oct 2022**

CPP Developer Intern

- During my internship, I acquired hands-on experience with C++ concepts, applying theoretical knowledge to practical scenarios.
- I contributed by authoring several well-researched articles on various C++ topics, showcasing my understanding and communication skills.

EDUCATION

BE (IT)	-	Smt. Kashibai Navale College Of Engineering, Pune MH- 2019 – 2023	-	CGPA: 9.05
INTERMEDIATE	-	Sri Chaitanya Junior Kalasala, Hyderabad - 2017 – 2019	-	Percent:84.70%
HIGH SCHOOL	-	Shri Deshikendra Vidyalaya, Latur, MH - 2016 – 2017	-	Percent:85.40%
